Use a tested kidney remedy.

James O'Neill, Hazen, Nev. says:  
"I had more or less trouble from weak kidneys and suffered terribly from my back. At times it was almost impossible for me to stoop over or bend my body in any position, on account of sharp shooting pains in my loins. The kidney secretions passed too frequently. One of my fellow workmen had used Doan's Kidney Pills with good results, so I got some. Two boxes completely cured me."

With an increase of wages announced for May 1, the Silver King Coalition of Park City is paying none of its underground men less than \$3.50 a day, it is said. It is understood that all other Park City mines will grant another increase at once.

From Park City comes word that little pockets of ore are being run into as work progresses at the Iowa-Copper-Copper-Apex property on Scott hill and the management hopes that an ore body will be uncovered before the summer is far advanced.

Better progress is being made at the New Quincy at Park City, according to the latest advices from camp. Now that more water is coming into use, and power is increasing, the New Quincy will be furnished a more adequate supply of air in the deep workings.

Shipments of ore from the mines of Tintic last week totaled 192 carloads. This is estimated at 9,350 tons and valued at \$235,000. It is compared with 190 carloads the previous week. In last week's consignments is found the first car of concentrates from the new Tintic mill. It is estimated at \$25,000.
